

## Room 3 Newsletter

### APRIL 2016

#### Reading

It is super important that you listen to your child read every night.

#### Mathematics

Practise counting up to 100 and then back to 1 when you are in the car or during ad breaks when watching TV. Like reading, this needs to be practised regularly before students become proficient.

#### End of Term 1

The last day of Term 1 is rapidly approaching and students will be looking forward to a relaxing break. Please remember that these last two weeks are still full of learning and assessments, and any absences have an impact on your child's learning. Obviously, if your child is unwell, then staying home is the best option, however, shopping trips or days at home are best kept for the holiday break. Please see Miss Dempsey if you have any questions.

#### Last day

Thursday 14<sup>th</sup> April

#### First day of Term 2

Monday 2<sup>nd</sup> May

#### Tissues

Thanks to the 4 parents who have bought in a box of tissues. It would be great to have the rest in by the end of next week.

#### Book Bags

These need to come to school EVERY DAY so our books are protected and notices get home in one piece! Your assistance is appreciated.
