Welcome back to school - Term 2!

I would like to start this term newsletter by showing gratitude -

gratitude for all those who have stepped forward and supported their children's teachers on trips, in the classroom, and by following our school's processes. Without your support there is so much that cannot happen - with your support, we can

ensure that the exciting plans we make to keep things 'interesting' for your children can go ahead. Also, I would like to say a huge thank you to those of you who have already committed to helping this term with events. We have a busy term ahead with exciting plans afoot from the Science Roadshow to an 'in school' Disco which is being trialled by FOMBS for Pink Shirt Day - our focus on AntiBullying! Please ensure you keep abreast of the fun events happening and add them to your diaries - grab a police vet from the office so you can help out in and out of school.

We are a fully fenced school. We ask that you PLEASE close the gates behind you when you enter and leave the grounds.

We have some students who have very high needs and can run. Insley Street is now a very busy road and we need to ensure

these students are kept as safe as possible - we value your support in this matter.

Groundworks are underway, as you will remember we closed the school for the works to be prepared for the new astroturf.

There will be some disruption at the start of term while the turf is completed - it will be worth it! Another fab space for our students to play when the field gets boggy! We will also have four new portable classrooms arriving, potentially before the end of the term - I will keep you

in the loop as things progress. The school grounds will remain closed before and after school until further notice.

Upcoming BIG Events for T2 - we need your support!:

- Wellsford Sports Exchange we don't apologise for the fact we are in this to WIN! This competition goes wayyyyy back and bringing the cup home is a very serious matter! That being said, the kids have immense fun at the same time. The teams are chosen by our sports coordinators and the teachers, they are the ones watching the children's practice and see the students who give us the best chance of success.
- **Pink Shirt Day** This is an annual event aimed at raising children's awareness around the prevention of bullying in school and out! It is a mufti day when the students all wear pink, dress up and have FUN! The reasons for this day being so important are being heard nationwide in the news and via talk on the playground!

Attendance: We are required by the Ministry of Education and our government to track

attendance. We use specific codes to enable us to do this accurately, these are explained further down our newsletter. Our overall school attendance for Term 1 was quite eye-opening - only 57%, just over half of our school, has acceptable attendance rates. We will support parents whose children are in the orange and red zones. Please do contact us if you need support getting your child to school. Here is an article I wrote a few years ago that shares the Power of Attendance at School.

mind over manner.

REALISING THE POTENTIAL OF DIFFERENTLY WIRED MINDS

Mind Over Manner is coming to Mangawhai to deliver a free Neurodiversity Workshop for community (not suitable for children)

Our workshops use the power of theatre to introduce participants to an alternative way of understanding so many young people . Takiwatanga - those who live in their own space and time

Mind Over Manner provides education about those who sense and learn differently. Our experienced team of actors show how a young person's sensory perception and cognitive relationship to the world can often result in rude, shutdown or confused behaviour.

We will bring a number of charged scenarios to life, then work with you, our participants, to unpack, bring our collective learnings and re-evaluate our responses to the difficult situations that often arise.

These workshops are relevant to all people who live alongside or work with young people who have behavioural, sensory, and learning differences. We encourage whanau, professionals, and ALL members of the community to engage in these eye-opening and intriguing workshops.

"It is the most powerful, emotionally charged and practical professional learning I have ever experienced."
